DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1 – 2, drawn to “An electronics packaging system”, classified in class 29, subclass 740.

Group II, claims 3 – 7, drawn to “An electronic-part placing unit”, classified in class 29, subclass 759.

Group III, claims 8 – 14, drawn to “A printer”, classified in class 228, subclass 22.

Group IV, claims 15 – 17, drawn to “A reflow unit”, classified in class 228, subclass 43.

2. The inventions listed as Groups I – IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I has the special technical features of a combination of a printer, a placing unit, and a reflow unit wherein the printed wiring board is held in generally upright position.

Group II has the special technical features of a part holding mechanism, a turning mechanism, and a guide mechanism.

Group III has the special technical features of a pair of screen, a squeegee mechanism, and a driving mechanism.

Group IV has the special technical features of a reflow furnace, and first, second, and third heating mechanisms.

Group I does not have the special technical features of Groups II – IV.

Group III does not have the special technical features of Groups I – II, and IV.

Group IV does not have the special technical features of Groups I – III.

3. A telephone call was made to Jay H. Maioli, Attorney, on 10 November 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
